About me

MIPT alumnus, big data academy student, listener of best experts.

Recently I work in the field of computer vision

Skills

computer vision

MLOps

SQL * R * C++ * L^AT_EX

Python * Linux *

Russian★C2 English★B2 Tatar★B2

Spanish★A1 Turkish★B1

(*)[language proficiency]

Education

MSc, ФАКТ
МИПТ (МФТИ)
2022 | Moscow

ВMath, Кафедра теории функции и приближе-
ния
КФУ Институт Механики и Математики
2014 | Kazan, Russia

Experience

Feb 2022 —
Now

Machine Learning Engineer

Innopolis University

- tasks: semantic segmentation of medical data, pathomorphology, fluorography
- skills: torch, python, tfs, DICOM

Jul 2019 —
Feb 2022

Data scientist, comp. vision

Avtodoria

- tasks: semantic segmentation, applications with HD map and geodata, image and geodata processing
- skills: python, bash, git, docker, pytest, opencv, torch, geodandas, gitlab, etc.
- achievements:
 - deep learning model from scratch to prod
 - solutions were sold for a big profit

Sep 2017 —
Oct 2018

Data Scientist

Maxima

- tasks: research, statistical analysis: finding and fitting distributions, checking the hypotheses
- skills: python, r, pandas, sklearn, statsmodels, jupyter etc.
- achievements:
 - creation an application based on the Bayesian statistics to replace people. Tests were great.

Events

Main recent events

Sep 2020 -
Now

Big data academy
student

mail.ru

- learned subjects:
 - advanced python: pytest, logger, rest services
 - introduction to algorithms and data structures
 - geodata analysis: typical problems, geopy, geopandas
 - machine learning on graphs: networkx, dgl
 - machine learning in production: git, docker, dvc, mlflow, airflow, kubernetes, cicd, reproducible code
 - advanced ml: based on the bayesian statistics etc

Certificates

- Yandex.disk folder for certificates
- I was listener of HPC school by Intel (2014), Innopolis University (2014,2015, certificate of the professional development), Summer Bioinformatics School (2014)

Interests etc.

Science, music, self-education, languages (speaking and programming)

Future aims

DevOps, reinforcement learning, ROS, SLAM
