

# Karimov Aynur

Data Scientist

5 Nov 1989

Russia

 $+7\ 9656166348$ 

ainureg@ya.ru

## About me –

prefer open source, always involved in self- and professional development. Currently I am a student of MIPT

Skills ——

git \* bash \* docker \* airflow

R \* C++

Python \* Linux \* LATEX

Russian $\star$ C2 English $\star$ B2 Tatar $\star$ B2 Spanish $\star$ A1 Turkish $\star$ B1

(\*)[language proficiency]

## Education —

MSc,  $\Phi AKU$ 

МФТИ

2022 | Moscow

still not graduated, only diploma left

BMath, Кафедра теории функции и приближения

ближения КФУ Институт Механики и Математики

ки 2014 | Kazan, Russia

Experience

Feb 2022 — Now Machine Learning Engineer

Innopolis Universiy

• tasks:

- semantic segmentation of medical data

• instruments:

- torch, python, tfs

 $\begin{array}{c} {\rm Jul} \ 2019 \ - \\ {\rm Feb} \ 2022 \end{array}$ 

Data scientst, comp. vision

Avtodoria

• tasks:

 deep learning models (semantic segmentation) from scratch to prod

- applications with HD map and geodata

- image and geodata processing

• instruments:

- python, bash, git, docker, pytest

- opency, torch, geodandas etc.

Sep 2017 — Data Scientst Oct 2018

Maxima

tasks

 We were focused to create an application based on the bayesian statistics to replace people.

 Statistical analysis of the data: finding and fitting distibutions, checking the hypotheses

• instruments: python, r , pandas, sklearn, statsmodels etc.

#### Events)

Main events since 2014

Sep 2020 -Now Big data academy

student

mail.ru

• learned subjects:

- advanced python: pytest, logger, rest services

 $\,$  – introduction to algorythms and data structures

– geodata analysis: typical problems, geopy, geopandas

- machine learnong on graphs: networkx, dgl

 machine learning in production: git, docker, dvc, mlflow, airflow, kubernetes, cicd, reproducible code

- advanced ml: based on the bayesian statistics etc

2014, 2015 Summer School

Innopolis University

• Courses of HPC (High Performance Computing)

• Certificate of the professional development

2014 School for young specialists

Intel

• Courses of HPC, Intel programs for HPC

2014 Summer Bioinformatics School

Bioinformatics Institute

• Bioinformatics courses

#### Certificates

Yandex.disk folder for certificates

### Interests etc.

Science, music, self-education, languages (speaking and programing)

Future aims

DevOps, reinforcement learning, ROS, SLAM
